8a. Churchyard Report November 2026

Churchyard Gates

The new 2m long posts have been delivered and are subject to finishing to mirror the existing posts, which David Oliver has said he will undertake for the parish council. On completion Countryside Gates & Fencing will remove the current posts and install the new posts. At that point, final measurements will be taken and the new gates manufactured. Weather-permitting the new posts should be in place this year, with the new gates installed early in 2027.

Yew Tree

Am e-mail has been received from the secretary of the PCC to ask that the yew tree adjacent to the main door of St. Mary's be cut back. The clerk has been asked to obtain a quotation for the work.

Cllr Nick Mills 10th November 2026
